

Performance Assessment System for Students (PASS)

THE SOLUTION FOR ADMINISTRATORS, FACULTY, INDUSTRY EVALUATORS AND STUDENTS.

A powerful web-based data management system for collecting, storing, analyzing, and reporting assessment information.

Setup Assessments

Manage Assignments

Evaluate Assessments

Generate Reports

Why Choose PASS?

The system supports data collection for accreditation purposes. The comprehensive system can be used for any school, college, university or private institution.

- Create plans of study for each academic program with learning outcomes and performance rubrics.
- Maintain an archive of evaluation results that can provide data for program improvement.
- Generate on-demand reports to display and export evaluation results in easy to read format.

Innovative Assessment Solution

Designed and developed in collaboration with the expertise of educators and administrators. Thoroughly tested by faculty and program evaluators.

- User-friendly interfaces
- Simplified workflow
- Secure, web-based access
- Assessment data recorded quickly and easily
- Reliable and scalable database
- Role-based access
- Technical support
